Accommodation for Adults in Malta

Residence Accommodation

In Malta, we offer 2 types of Residences: Comfort & Superior.

Comfort Residence

Our BELS Malta Comfort Residences are available in two separate premises. Each building is identical in relation to quality, amenities and pricing.

Each apartment consists of 3 bedrooms that are comfortably furnished for long or short stays. Every unit consists of a living area with Wi-Fi in the living area, a common bathroom, a fully equipped kitchen & a washing machine. Bed linen & towels are included and replaced as part of our weekly cleaning.

One can opt for one of these two choices:

Comfort Basic

Our Comfort Basic Rooms are located in 3 apartments behind our school building. These apartments can be booked as twin rooms. This is our most economical option, with significant price discounts for long-term students. Minimum stay in this category is 8 weeks. Each room includes a fan, two twin beds and a shared wardrobe.

Comfort Plus

Our Comfort Plus Rooms can be booked as twin rooms or single rooms. These rooms are available for any length of stay. Rooms in this category include a fan, two twin beds and a shared wardrobe.

Superior Residence

Our BELS Malta Superior Apartments form part of a modern and gated housing in Xemxija, a coastal area in the town of St. Paul's Bay. From here, students can reach the school in a 20-minute walk or catch a bus from a stop right outside the residence, which takes them directly to our school.

The main difference between our comfort and superior residences, is the air-conditioning in the bedrooms.

There are two alternatives to choose from:

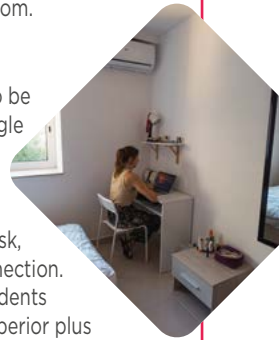

Superior Basic

Our Superior Basic Rooms are available as twin rooms (shared with another BELS student) or as single rooms. Each room

includes two twin beds, bed linen, a shared wardrobe & air conditioning. A private bathroom can also be requested at an additional fee, when booking a single room.

Superior Plus

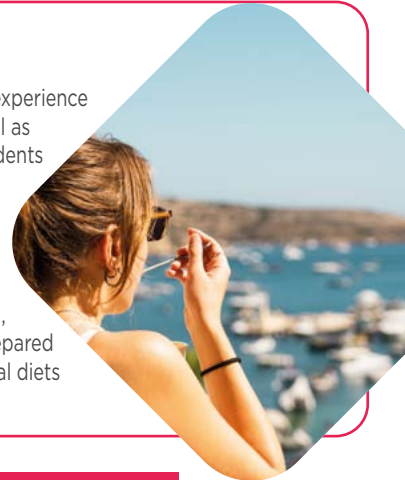

Superior Plus Rooms can also be booked as twin rooms or single rooms. When compared to the superior basic rooms, the superior plus rooms are more spacious and have a desk, a chair & strong internet connection. These rooms are ideal for students seeking to work remotely. Superior plus rooms also have sea views from the living room.

Homestay

By choosing home stay accommodation, students expand their experience in Malta to include a cultural and uniquely Maltese aspect. As well as benefitting from out-of-class opportunities to speak English, students will also discover more about the local life & traditions.

In our homestay accommodation, students will be treated as though they are a member of the household. In respect to the family, students are expected to adapt to the family's life and routine. Many of our home stays are within the area of the school, either a short walk or bus ride away. Breakfast and dinner are prepared by the host family. Our families cater for different allergies, special diets and preferences for a pet-free household.

Adult Group Courses

Standard Group

General English Standard
(20 lessons/max. 12 students)

Our General English Standard course focuses on giving the learner balanced practice in both systems (grammar, vocabulary, phonology, discourse) and skills using general topics and authentic material. The course concentrates on all the four skills: speaking, listening, reading, and writing with special emphasis on fluency. The aim of these English language courses is to improve the students' skills in all the areas of the language. This course is available in Malta and Gozo with a maximum of 12 students per class.

General English Intensive
(30 lessons/max. 12 students)

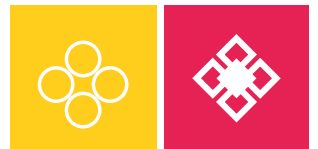

The General English Intensive course includes the Standard English course and 10 extra lessons per week. The additional 10 lessons are held in the afternoons and focus on fluency, dedicating plenty of time to confidence-building, speaking practice, error correction and feedback. This course is ideal for learners who would like an opportunity to boost their speaking skills while interacting with other multinational students. Fluency lessons go beyond the book, helping students to speak English with ease and do any imaginable thing in an English-speaking country. The lessons include a variety of topics that cover functional language, everyday topics, role-plays, discussions, and social situations.

Mini Group

General English Mini
(20-30 lessons/max. 6 students)

Mini-group courses have a maximum of 6 students per class, therefore guaranteeing more individual attention from the teacher and the ability to learn at a slower pace. Each of the group courses at our English language schools can be taken as a mini-group course; both our General English Standard courses and General English Intensive courses. The limited number of students per classroom benefits learners as it allows each student more speaking time. Lessons can also be personalised more to address individual requests. Moreover, a small classroom environment gives the teacher more opportunities to observe and assess the students and their individual learning needs.

English for Specific Purposes & Individual Tuition

At BELS, we offer two types of individual lessons: **English for Specific Purposes (ESP)**

- **Individual: one-to-one**
- **Semi-individual: two-to-one**

During individual courses you can choose from a variety of academic programmes, which include General English, Business English, exam preparation courses and English for specific purposes. All our individual courses involve an in-depth needs analysis on the first day, which enables us to design a unique, tailor-made programme for each of our students. All of our individual courses are highly flexible in the methods of delivery, course content and duration. Together with the teacher, students will discuss their learning goals and preferred learning styles.

Our English for specific purposes courses include a variety of programmes made especially for specific industries or business skills. They are available as individual training, closed-group and team-training sessions for companies or individuals. We use current materials to match each industry in an English-speaking context.

These topics include: Tourism, HR, Customer service, Marketing, Construction, Law, Medicine, Aviation and many more.

Exam preparation

We take pride in helping individuals boost their exam-taking skills and achieve results for Cambridge, IELTS, TOEIC or TOEFL prep. Any additional exams are accepted on a case-by-case basis as long as we can access materials linked to such exams.

ERASMUS Teacher Training

We offer teacher training programmes for teachers who want to further their education and expose themselves to new methodologies. We offer a mix of General English and Teaching Methodology which can be adapted according to the groups' level. Teachers will join our GE 20 course in the mornings, but then have catered teaching methodology lessons in the afternoon.

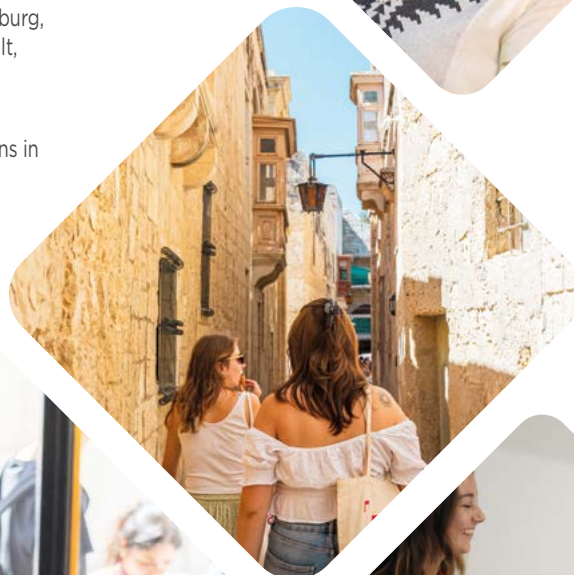

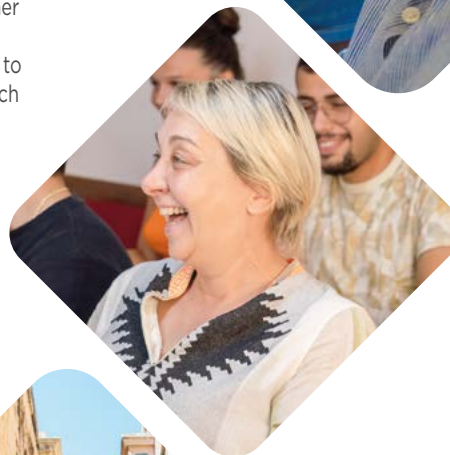

These courses can either be 1 or 2 weeks long. The start dates are listed below:

Malta	Gozo
1st July	1st July
15th July	8th July
29th July	22nd July
5th August	5th August
12th August	

General English 20L AM + 10L PM teacher training

Our General English course (20 lessons) focuses on giving the learner balanced practice in both systems (grammar, vocabulary, phonology, discourse) and skills using general topics and authentic material. The course concentrates on all the four skills: speaking, listening, reading and writing with special emphasis on fluency.

The additional 10 lessons are held in the afternoons and focus on teaching methodology, dedicating plenty of time to confidence-building in teaching different subjects using English as a medium. This course is ideal for teachers who would like an opportunity to fine-tune their teaching skills and apply new techniques and methods to their own classrooms. The lessons include a variety of topics that cover the essential skills to teach English along with other subjects through functional language, role-plays, discussions and a variety of techniques to ensure that the students are absorbing as much of the language as possible.

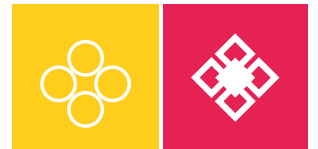

Bildungsurlaub

BELS Malta and Gozo hold Bildungsurlaub recognitions in: Berlin, Brandenburg, Bremen, Hamburg, Hessen, Niedersachsen, Rheinland-Pfalz, Sachsen-Anhalt, Schleswig-Holstein & Thüringen.

Our Intensive courses (minimum 30 lessons) are recognised in the states requiring 30 lessons. For the states requiring 40 lessons, the cultural lessons in the afternoon are obligatory to come to a total of 30 hours.

Long-Term Programmes

FREE Inter-Island Transfers
for students who book a long term package in both schools.

Assessment & Progress of Learning

Our long-term programmes are ideal for students who want to experience living and studying in an English-speaking country. Taking a long-term course allows students to get a better understanding of the English language, work on weaknesses and improve at a steady pace. On Fridays, students get the possibility to do an end of unit test to monitor their progress in the week. The test covers grammar, vocabulary and listening skills and afterwards a class correction is done.

When a student feels that they are ready to progress to the next level, they can take the change of level test. Feedback is given on the students' strengths and weaknesses and if a student doesn't pass, study suggestions are given. At the end of their course students will receive a certificate of attendance and a personal note from the teacher about the student's progress throughout their stay.

Our Residence In-House Leaders will be residing in the hotel, for the duration of our International Camps during Easter, Summer and Autumn to assist students throughout their stay with us. Students in our camp will benefit from the following services and facilities which are available in the hotel:

24-hour front desk

A fully fledged restaurant serving buffet breakfast, lunch and dinner

Two swimming pools (one outdoor and one indoor)

Conference hall

Library & Games Room

Luggage Storage Space

Meet and Greet

Airport pickup is included in the package. After leaving the aircraft, students must pickup their luggage and walk through the exit, where they will see our driver who will be holding a BELS sign. Our driver will drive students to our Juniors Residence where they will be greeted by our In-House Residence Leaders who will assist them with checking-in. Thereafter they will accompany them to their room and introduce them to their new roommates.

Student Welcome

All new arrivals have to attend our Welcome Meeting. During this meeting they will receive a welcome pack (complete with emergency phone number), school & house rules as well as a copy of the weekly programme. The welcome meeting is then followed by an orientation walk of St. Paul's Bay and Bugibba.

Activity Programme

A number of safe and fun-filled activities (that are tailor-made for young learners) are included in our Junior Camp. All activities are supervised by our trained activity leaders, who are dedicated to making sure students have the best possible time with us.
